MOTTES IN THE CANDLE

One with has never trave en u con the ocean paras. Every moth carns or nee cance asts, the e thinks of the vast trave and trance that goes over the waters, and he is ready to imagine that the great ceed is alive with the hurrying to nach warm, and altractive; and, unscared by the deac, the foods a creatures rush into the cames,

> i, jas been subbaser that men have reason one a mostal senso. I has been suproped that they poserve, draw conclusions, and learn by exoo'ting cown upon the anima work as a group o interior teings, and as su vects of commiseration on account of their Le enselessness, yet there is a carge blass of men reproduced by every passing generation, that co exact y what he moths co, and de exactly as the motis cid. They earn nothing by diservation or experience. hey draw no cone usions, save those which are ' ò tremse ves. Aroune a certain class of bridiant emptations they gather, night after might, and with singer wings or lieress bockes, they strew the ground around them. No instructions, no expostulations, no so servation of rain. no sense of duty, no remonstrance of conscience, have any effect upon them. I her were moths in act, they could not be silier or more obtuse. ney are, indeed, so ar under the confination o. their anima natures that they act like anima s, and sacrifice themse was in himes that the world's

experience has shown to be atal.

Wine and strong crime form a cancie in which no hous of men have singed themselves, and destroyer with but y and bout. The came e mums in open space where B men can see it. Law sits or line, and sanctions its burning. It bays a prince's revenue to the government. Women faunt their gauzes in it. C erzymen sweept serr robes thronghait. Respects any uses thought, its infinitely. In many regions of the country it is a 1 21 y respectable cancle. Yet, every year, sixty lousant persons in this country cie of the tem grance; and, when we think of the pasted ives 'nat ive in want and inisery, o' wives in ces mir, of over muised and botted out, o remerator that this has been going on or thousames of years, whetever wine has been known; and whoever has eaten the frog's beginning the the moths? It is a most enough to shake a man's

here is just one way of salety, and only one, and a young man who stands at the beginning of certain way it is not, or a nem in the eigestion , of lower. We believe that no greater or more ata has uchiation ever possesser the work, and

not a pasant in its taste, and ngreed be in its first come afterwards. The work excats itself and tries to cheat itself in this thing; and the mests who offate of this mortillas work as me a misting it," and the elements in its claim a sort o, nu ritious no serv in a coho, what never accordingles in and the men who make a lest on water drinking, all anon that wine and strong crink have cone more again than good in the wor'd, and a way, will until that mailennium comes, whose feet are constantly tripped from under it by the drungates that he profie in the bat a. The mil emblum, wit ca grog shop at every corner, is just us impossible as accurity with a argiar at every wincow, or mevery room of the louse. A men show that drowns a curse, vet young men sport around it as if there were sometring very desirable in it, an sport untithey are hopelessly subject, and then join the great, sat army ! iat, with undiminister mum-

ers, presses on to its certain ceath. We do not like to become an exporter in these Note em ligitees affect a fonciant or sear ornal columns, sut, it it were necessary, we won't year, with young men upon weary knees to touch not the accurred thing. Total austmence. now and for ever, is the only guaranty in existence against a crun crec's are and ceath, and long ear-rings are to be revived this winter, it here is no good that can loss by come to a man by crinking. See yout of the cance. It was a ways singe your wings, or cestry you. .. Dr. J.

G. Halland: Seribner's for October.

TRAQUATIONNER. On one occasion at a conner at the distor of Chester's, anna; Nore urged it. Januson to take a little wine. Le replied, "I can't cring a . at e, chi.c, and, therefore, I never touch it. Anstinence is as easy to me as temperance would be cifficult." Many have the same infirmity, but are cestitute of the same courage, and there ore are

A. finery s tows attleness. Larater. "ein serance, inceed, is a pric e o' go'c, and he who uses it rightly is more nace a god than a

I ave the courage to show your respect for nonesty, in windever guise i. an pears, and your contempt or cis tonesty and cut a terry, by whomsoever expirited. The consciousness that Coc is our Pather,

that he over us smiles upon us, actually cheris'es us as is confirm, is the sweetest, most sou 'rea ing, beart com orting, sin cestroying, ear choe ing, one assuaging, it is inspiring, prissit eeing that ever enters our nearts. ... is the other cay, spelled it out slowly and then ex- an infinite luxury, a perpetual glachess, sweet suns's ne and singing, augmer and praise." The final purpose of the soul is not to be an

ornament mere y to some great occasion, not to

made a show, not to live on the stage as an actor, dressed in redoons and spangles; but to be ecuca ec. to out orth its strength, to ave in accorpance with the great principles of cuty and right ere les he error in a moetic and overwrought imaginative views of the world. Lan was not created or some cazz ing end; but or cu ture-continua steady mora power. The sun was not of account the neavens to in fame and awe the imagination of men, to shoul cataracts or fire and plaze fiercely, with a grand noetic spencor; but to raciate an even heat, and call orta continua y tae energies o' devenuent harres, by the unvaried bounty of its beams, it u.3's its cestiny at every moment, by a 'so constant use. It is so wit a man. The attamconstant use. It is so wit a man. The attamment of our destiny is no reacted by any particalar orm of ife, out by continua caready mem the inwearier use. We were not made for such or such a good, not, or perpetual ou ture. We must not note to live at some uture lime, at some more avorable period, at the end of the next week, or the next year, when we have retiret fom dusiness, or have removed persons rom he cita. There are no civisions of plants a no slop and blacks where we may can be a hank organ men, no ie insurance agents, no raimer, and jegin to live. The existences

month, to Vale College, Scientific De artinent, at Lingburg it my question, one in reply to it and give promise of supervis scholarship. are now sixty. Chinese students sapporter by built government in Connecticut and Massiebii. Thirty came two years ago, and that's arrived a year since, and thirty in secure expect. er in a sout a foreight. So ar, then reportment markable. The Rudents are placed at first in cultures farmilies, 'who in a place, where their matel friend across fam to get as our cut, and first aim is the mastery of our language. They; perceive holy, by change of wag, it is suprised are a sin ler strict supervision, and soem each from two to foat weeks a year at the to leacquarters of the Chinese 's Incational Commission, in artford, & iere they are carefully examine, as to their halfs and progress,

the Massia. Or carses to be carron to oring about this result was, it is said, one of the stoop time of her marriage. For many year she principal objects of the secent visit of the dishop that heed a number in sociable poset, only a nongof Orleans to Sorte. To aith the necessary the fix bersonn effects which she left folian was conditions of canoni attors imposed by the effected and kage of well worn live letters, written more of Pope Urbin VIII, which is jures proof be athanisms years ago. The day of her marriage The the the mary of the bean muture of her in been appointed, but the man to whom the virtues, a special tribunal has been instituted at a rul given fer heart proved fase, and disap-Orlean to inserve the evicence of attaches of the community means of reservoires, and changed the touching story of the admirable herome." Who excurrent of her the Still belong sullen Among the courts to be submarted to this court as impose, and live on a gorent entity with are the ales concerning her with and infincy, all the word. She and out missed letself with consuct toward out parents, preve to the Virgin, at the menombes of her disappointed hopes, fulfilment of ser did ex is a Unthose, her gift of any reasures them until the day of her decease, provincy, her upp traceus, teve ations, and min the ratherest each that exercit her witherest and acks, her care nat's thus, and, finally, her care er intered form was the same one that her skill linky and marty it im.

he whole minaging the should be six times. the england the foot. Whether the form besencer or ginness the rule solds gave transfere. viati to from it it is be enture from the highest beauty of proportions. The Greeks made also their statues according to this rule. The fact, from the righest point of the long icall, where the have begin, to the ohm some with of the whole stature. The find here the west to the morale furger, is the same of Lists the tiplef the crest to the high steart & the lorebead is the seventh of him. If the face, com the post of the hard to the class, be divided into three coals, parts, the first shire sion leteriomes the mace where the eveloping meet, and the second, the place of the nestrils I eight from the fact to the very of the new is the distance between the correlative take forgers when a The arms are extended.

Trave ers abroad good home to entire est commendations of the American silks, which in oerfam quarters are refression for continental trave; ing cresses, and they sture the test of a way to make one proud of home manufactures. A carifore thy, pole wealthy enough to have neased herself in the matter of oness, lately is 1040 to make the tone of transmission American. s. s. which had afready been worn two seasons. It store the voyage, the infinite identities, and exposures, without losing its treshness; and tame some sinte in countenance for another the testimony of all advisences that tiese silks are wearingh indestructable, will be necessibly those who see their covered, inenter gros grade gotto meres in two scasons, it anything like use is more of the or that American sike actually wear smoother, and have a mer look a fer they have been worn two or threemonths. On the great improvement in their was mit gentlemen in affendance will bresent. inis i, which has been made within the ast two years, is matter of admiration to all moges.

- A writer in the Baltimore Increase says ine young man or the day sees, a thin stage. The ight gances across your comviexion, Ans, and he sees a cull, opacite white which once the the teprosy. It exers the reacskin sea ing from the side of your nose and mum ser or two, and then she store dishet will a cheeks, ike ie ins seen be uit tie scenes, tie trim in an de igit, as sie saw tie Queen comview of enchantment languagin takery vecay ing brwate to sleak with her. Where was a and sisters of paint cropping from the rotting he right republicanism now? I er beart warmmateria. When you move so grace u ly arount the room he sees the sharp out thes of your small, mund waist, notes how one shoulder is ligher tian the other, and now the knot or ribion on your boson flutters with the short, suick play of kiss, and that a liny defences had been elected your lungs in the narrow space off to them, against a riently little or woman, a limy nonof the critics then? "hat he coes not know how erum pressing the rips in to the organs of the rip y of as it was, and kissed it, and the Queen seemed a ecty the vitality and canability of the female constitution? Or, that he is not aware what a ! "ancora's buy of even a chern one, unhabby invalie carries with her? Your presume too much on popular crecuitylanc ignorance if you imagine the spectacular per ormance can impose on men whose attentions are worth having. lotter vers and such i usory contrivances are a ai ures '
